*Job
wanted!*

Finding a job can be very hard and tiring process. Job hunting, job seeking, or job searching is the act of looking for employment. The most common methods of job hunting are:

- Finding a job through a friend or an extended business network, personal network, or online social network service
- Using an employment website
- Looking through the classifieds in newspapers
- Using a private or public employment agency or recruiter
- Looking on a company's web site for open jobs, typically in its applicant tracking system
- Going to a job fair
- Using professional guidance such as outplacement services that give training in writing a résumé, applying for jobs and how to be successful at interview.
